

## How To Set Parental Controls on an iPhones / iPad

### Set a screen time passcode

- Go to 'Settings' (a grey icon with a circular pattern on the home screen) and tap 'Screen Time'
- Tap 'Continue', then choose whether it's your device or your child's
- If it's your child's device, follow the prompts on the device until you get to 'Parent Passcode' and enter a passcode, then re-enter it to confirm

### Block in-app purchases

- Go into Settings > Screen Time > Content and Privacy Restrictions. Enter your passcode if asked
- Tap 'iTunes & App Store Purchases'. Choose a setting and set to 'Don't allow'

### Block explicit content and set controls on apps

- Go to Settings > Screen Time > Content & Privacy Restrictions > Content Restrictions
- Choose the settings you want for each feature or setting under 'Allowed Store Content'

### Filter website content

This sets restrictions on what websites children can access (e.g., you can limit access to adult content).

- Go to Settings > Screen Time > Content & Privacy Restrictions
- Enter your screen time passcode. Tap 'Content Restrictions', then 'Web Content'
- 'Limit Adult Websites' (to block access to adult content in Safari and apps) or 'Allowed Websites Only' (to set specific websites as 'approved websites' and limit access to only these websites)

## Make sure you know the PIN to unlock your child's phone, so you can regularly check they are safe online
